# 8 Last-Minute Items to Pack for 4th of July Weekend

Everything You Need for a Fabulous 4th

by Austin Druse

Jun 5, 2019

There's nothing quite like the 4th of July. Great food, nice weather, and your favorite companions. But even with the best intentions, you could plan a trip and forget some gear.

We want you to be prepared. Whether you're relaxing at home or having a picnic at the park this 4th of July, we have 8 last-minute essentials to ensure your Independence Day is a real firework show. And with our fast 1-2 day shipping, you can get your last-minute items even sooner.

### **Cuisinart 14-Inch Tabletop Grill**

You can't whip up your favorites without a proper cooking surface. You've seen portable grills in the past, but never one this small and powerful, especially at such a great value. Whether you're lakeside or on your back porch, the Cuisinart Portable Outdoor 14-Inch Tabletop Charcoal Grill is perfect for any outdoor gathering.

It's easy to transport because it will fit right in the trunk of your car. You'll be treated to 150-square inches of cooking space and a dual-venting system for ultimate charcoal and temperature management. To top it all off, the firebox of this grill is coated in an enamel to keep it protected in case a storm rolls in.

## **Bull Outdoor Products Soft Grip Grilling Tongs**

Alright, you're all set with a grill. But, flipping those burgers and dogs without a set of tongs is going to cause some problems. Rather than using your hands and dropping your patties on the ground, we suggest checking out this set of Soft Grip Extra Long Handle Grilling Tongs from Bull Outdoor Products. You'll be glad you have them for the holiday as well as the cookouts to come.

## **Bull Outdoor Products Heat-Resistant Reversible Mitts**

Even with extra-long tongs, you still run the risk of getting burned, but that's easily prevented with some Heat-Resistant Reversible Grilling Barbecue Mitts. Your plates and tongs won't slip, and the cotton fabric will keep your hands feeling comfortable while you cook.

## **Polar Bear Coolers 24-Pack Light Nylon Soft Cooler**

Now, you're going to need to store all of your food and drinks somehow. Instead of using a heavy, clunky cooler, use this Nylon model from Polar Bear.

This cooler will fit all your favorite drinks and the ice will hold for up to 24 hours. Whether it's beer, soda, or water, you will keep them cold without cluttering the campsite.

## **Ball Jars Regular Mouth Glass Canning Quart Mason Jars, 12 Pack**

Not only are they very stylish and great for leftover food, using Mason jars is eco-friendly. Use these jars for your beverage and cut down on the need for plastic cups. Plus, they're able to hold up to 32 ounces of liquid, which means fewer refills.

## **Yard Tuff Steel 18-Inch Tent Canopy Ground Stakes, 12 Pack**

There's nothing like a gust of wind blowing your shelter into the next campsite. To prevent that headache, make sure that you have some backup stakes. This 12-pack from Yard Tuff will ensure that you never lose your tent or canopy.

## Caravan Canopy Infinity Zero Gravity Patio Chairs, 2-pack

After the sun sets and it's time for fireworks, grab the best seat in the house with this 2-Pack of Caravan Canopy Infinity Zero Gravity Patio Chairs. You and your best friend can enjoy the bright colors while you relax in style.

These chairs are suspension models, allowing you to lean back comfortably and confidently. The double bungee system will cradle your back for added comfort, and the tubular steel frame is sturdy despite being lightweight. When it's time to pack up, these chairs fold flat, making them easy to stow. They'll look great on the patio, at the campsite, or wherever you enjoy the fireworks show.

## Firman3,650-Watt 5-Gallon Portable Back-Up Generator

No matter where you travel for the holiday, try not to get stuck there. But if you do, you'll be in luck with your portable back-up generator. Whether your campsite has power or not, you'll appreciate having a little bit of extra juice for when the going gets tough.

Before you pack up for your 4th of July adventures, be sure to check off these 8 items and save yourself some hassles.
